

Amendments to the Specification:

Please replace paragraph 047 with the following:

According to the preferred embodiment of the present invention, when a user 290 visits the photo-sharing website or user website to access or view a resource 114, either as an owner of the resource 114 or as an invitee, the RMS 406 ~~200~~ automatically displays any relations 220 associated with the resource 114. Figure 5 is an exemplary window 500 displayed to the user 290 when the user 290 accesses albums controlled by the user 290 according to a preferred embodiment of the present invention. The window 500 displays the names of the albums 510, and, for each album 510, the names of any defined relations 520. For example, the Bridge Club Holiday Party album 510a (from Figure 4) is displayed and the defined relations 520a are "Owned by Bridge Club" and "Other Bridge Clubs."
